

Dear colleagues from AAA,

Dear colleagues from Cornell University,

Dear colleagues from Chicago University,

As the president of the Associação Brasileira de Antropologia (ABA), I would like to express, on behalf of the associates of ABA, our sorrow for the loss of Prof. Terence Turner. Many of us have worked and/or studied with him in Brazil or in the United States. He had many friends among us and the Kayapó indigenous people.

Terence Turner came to study in Brazil during the 60s and he had the opportunity to follow the Kayapó political movement and to assist them in many ways as a researcher. Turner had contributed as well to the advance of the anthropology carried out in Brazil and for the knowledge we have on indigenous people. He was an active member of our academic and political lives.

We would to extend our sympathies to you and to his family and to let you know that he will be missed.

He shall be remembered in Brazil.

Sincerely yours,

Prof Antonio Carlos de Souza Lima
President of Associação Brasileira de Antropologia
